

## November News

**Welcome to Valimex November news & produce update. November has seen significant rainfall across the country. The UK Potato crop is expected to be the lowest ever recorded, bruising and high levels of bacterial and fungus rots are causing the yields to be low. As we move into Christmas, we see UK Brassica's in full swing.**

This month we caught up with Chris Molyneux in Lancashire. Chris has some fantastic varieties of kale and rainbow chards, that are at their very best now. We collect direct from Chris giving you the freshest ingredients less than 24 hours old into your kitchens. Chris has an extremely good knowledge of the history of his seeds and is always trying to grow new varieties. He is a true pioneer of British grown Brassica's.
