

December News

Welcome to the Valimex December news & produce update. This month we see Blood Orange arrive from Italy. As always, the colour gets better from the harder frosts so these should improve throughout January. Also, in season are Sprout Tops, Kalettes, Crosnes, British Celeraic and January King Cabbage. As we mentioned last month, the UK Potato harvest has been hit hard with the wet weather. This has seen availability drop and prices are increasing, Cauliflower has also seen major price increases.

We are only a few weeks away from starting on the famous Yorkshire Forced Rhubarb, we look forward to welcoming back the ruby red stalks. This year we have increased our range from Special Ingredients including flavour drops. We also have the full Minus 8 Vinegar range.
